

# Apple

## Varieties

### **Red Delicious (Mid season)**

**Area :** Himachal Pradesh

Widely planted cultivar, fruits are large, oblong conical; skin smooth, bright-dark red colour, sometimes striped; pulp creamy white, tender, crisp, mildly sweet and juicy; available year-round and is mainly grown for table purpose.

### **Golden Delicious (Late Season)**

**Area :** Jammu & Kashmir, Himachal Pradesh

Moderately vigorous of trees; fruits medium-large, oblong, skin golden yellow with russetted prominent small dots scattered all over; pulp creamy white, firm, crisp, mildly sweet; available year-round. It is used for table and processing purpose.

### **McIntosh**

**Area :** Himachal Pradesh & Uttar Pradesh.

Vigorous growth of trees; fruit medium, oblate round, skin smooth with shining carmine colour on a pale green background; pulp white, tender, crisp, juicy; sweet with a good acid blend and mild flavour; susceptible to scab.

### **Chaubattia Anupam**

**Area :** Uttar Pradesh.

The variety produces medium sized fruits, which are shining yellow with red strips. Fruits have crispy white flesh with a sweet taste. The fruits of this variety have a distinct aromatic flavour.

### **Lal Ambri**

**Area :** Jammu & Kashmir

It is a cross between Red Delicious and Ambri. Skin is smooth, bright-dark red colour; pulp creamy white, tender, crisp, mildly sweet and juicy. Variety has an excellent keeping quality.
