- a) The net-worth will be ascertained based on the paid-up share capital of the company and reserves created out of profits.
- b) Share application money would be considered towards calculation of net-worth, provided the same has been converted into paid – up capital within the stipulated time as per the Companies Act, but in any case, it should have been converted into paid-up capital before the submission of the proposal.
- c) A computation of net-worth based on latest audited standalone financial statements of the Company, as duly certified by the Statutory Auditor of the company, needs to be submitted along with the application.
- d) In case of Pvt. Ltd./ Public Ltd. Companies where a significant portion of its net worth stands invested inequity shares of unlisted companies or is shown as loans & advances to various parties with nil or negligible income/revenue, then following additional documents would be required to be submitted by the applicant to ascertain the net worth:

- iii. Details of loans & advances along with reasons/justification for the same. In case it is observed that the equity contribution made by the promoter company has been utilized by the investee company in creating tangible assets/Capital work in progress in projects which are under execution then such investments in shares would be considered at face value.
- iv. However, in case it is observed that the investment by the promoter company is further being reinvested by the investee company in equity shares of unlisted companies or given away as long term/short term advance to individuals/related party/other companies and the investor company has nil/negligible income/revenue, then no additional clarification shall be asked for and the net worth of such promoter company shall be considered after deducting such investments/loans & advances

Components such as Assets include cash, current value of investments, land and building (supported by valuation report at circle rate, circle rate notification and land ownership documents), bonds, cash value of life insurance, current total balance of savings, current or fixed deposit accounts will be considered towards net-worth. The following methodology shall be adopted for determining the net-worth:

- b) If the applicant is an ongoing partnership/ proprietorship firm and the applicant has submitted an audited Balance sheet of such a partnership /proprietorship firm, the net - worth based on the audited Balance sheet will be taken into consideration. - e) The aforementioned net-worth components need to be supported by relevant documents.
- f) Shares of unlisted companies will be considered at face value for net – worth and shares of listed companies will be considered based on the average market price of the share for a period of 6 months prior to the date of submission of the proposal.
- g) Assets such as car, jewelry, antiques, gold etc. will not be considered for net-worth.
- h) Loans and advances given to group companies/ related concerns/ individuals will also not be considered towards computation of net-worth.
